

# HE series

Polyamide 6

*Widely used in  
automotive, E&E  
and carpeting  
applications*

## HE series

**The best choice for engineering plastics  
compounds and BCF applications due to  
its excellent properties**

- High stability
- Excellent strength and fluidity
- Strong plasticity

**HSCC**  **恒申**

# Always, All ways

## 恒尽所能

HSCC HE series polyamide 6 applies advanced polymerization production technology, stable process production conditions and high-quality caprolactam in the group's industrial chain which ensures stable product quality and diversification. The product offers high stability, excellent strength, fluidity, and strong plasticity, resulting in processed products with enhanced flame retardancy, wear resistance, oxidation resistance, and more.

Due to the unique properties, HSCC HE series are widely applied in automotive, electrical and electronics, home appliances, industrial connection, construction and installation, furniture, the sanitary industry and in mechanical engineering.

**High Strength**

**Excellent Stability**

**Consistent Fluidity**

Grade	Application	Viscosity
HE2500	Compounding, Engineering plastics, BCF	2,5
HE2700	Compounding, Engineering plastics, BCF	2,7
